Buddhists Revive Anti-U.S. Theme For Saigon Riot

SAIGON (AP)—Buddhists revived anti-American slogans in a Saigon riot tonight and monks tried to pressure U.S. Marines to intervene against government troops in Da Nang, where rebel and loyal forces again skirmished inconclusively. The crisis has built up over an election issue threatening to stall military action in the war against the Viet Cong and bring a possible reappraisal of the American commitment in Viet Nam.

Independent To Challenge Idaho Solon

POCATELLO (AP)—State Sen. Perry Swisher, R-Bannock, announced today he will run for Congress "as an independent to challenge the war policies of both major parties."

Swisher said he will file as an independent on the November ballot, and that he was doing so because "there is no practical way to challenge an incumbent in his own party and win in the new convention or the primary that follows it."

Yet the Second District incumbent should be challenged. His main criticism of the administration is that we are not killing enough people in Viet Nam. Our two senators do not share his appetite for hot war."

Incumbent Republican George Hansen, who defeated Democrat Ralph Harding in 1964, has advocated mining the harbor of Haiphong in North Viet Nam and "isolating" North Viet Nam from Russian and Chinese aid.

Go-Go Girls Featured at GOP Party

PITTSBURGH, Pa. (AP)—Republicans are trying to get rid of any straight-laced image of the GOP. They staged a \$100-a-plate dinner-dubbed as "a go-go party" Thursday night.

The main speaker was former Vice President Richard M. Nixon, who was escorted to the speaker's platform by a bevy of go-go girls.

Other innovations included: Four hip-swinging girls twisting and turning in cardboard cages to rock 'n' roll music. A two-year-old performing elephant who did her tricks on stage.

Dinner music by a rock 'n' roll group playing the latest pop tunes.

And a dish on the menu called "beans a la go-go."

"I've never seen anything like this in my life," said one man. "Republican supporter, and I've been to hundreds of these dinners. I like it."

The crowd of 1,500 apparently enjoyed it, too, applauding after every address.

Nixon criticized President Johnson's Viet Nam policy, saying the administration was putting politics before policy.

"The major shortage in Viet Nam is the lack of what's going on out there," he said.

Nixon said a Democratic split over Viet Nam would help Republicans to their biggest victory at the polls in November since 1948.

LSD Should Be Outlawed, Kennedy Says

WASHINGTON (AP)—Sen. Edward M. Kennedy and federal health officials are at odds on how-use of LSD can be curbed. They also disagree on whether use of the hallucinogenic drug will increase.

The Massachusetts Democrat said Thursday that unauthorized possession of LSD should be made illegal. He complained that Public Health Service officials are "not adequately aroused about the situation."

Surgeon General William H. Stewart and Dr. Stanley P. Yolles, director of the National Institute of Mental Health, said they think the flow of LSD can be cut off under the Dangerous Drug Act passed in 1964.

They said, contrary to Kennedy's prediction, they don't know that its use will continue to increase. "We are not sure this is going to expand across the country," Yolles said.

To this, Kennedy replied: "I'd be willing to wager that you are mistaken."

The charge took place at a hearing of the Senate Juvenile Delinquency subcommittee. The committee chairman, Sen. Thomas J. Dodd, D-Conn., suggested that manufacture of the drug be made a felony. It is now a misdemeanor.

High School Seniors Wind Up Activities

Twin Falls High School graduating seniors ended their high school careers with a full-day of activities Friday, which included a dance at the National Guard Armory.

The Memory Arch began the day for the seniors as they were feted by members of the junior class. Junior girls, dressed entirely in white, flanked both sides of the walk as the seniors filed under the flowered arches.

Following the Memory Arch, the Citizenship Cup assembly was held. The graduating class was voted as having the best overall behavior by school personnel, and was awarded the cup—a treasured trophy.

Seniors were feted at a brunch following the assembly, and then departed for Nat-Soo-Pah where they enjoyed an afternoon of swimming and a picnic.

The Friday night dance will be held for seniors and their dates at the Twin Falls National Guard Armory.

Weather permitting, baccalaureate will be held at 3 p.m. Sunday in the Bruin Stadium and commencement will be held at 8 p.m. Monday in the stadium. In case of inclement weather, both programs will be held in the gymnasium.

Enrollment in CSI Summer Courses High

Enrollment in College of Southern Idaho summer session classes is progressing at a rapid rate, with more than 80 applications filed, college officials reported Friday.

Interest among high school seniors has been high. Glenn Norris, dean of men, reported, as a number have already registered for classes or expressed interest in enrollment.

Academic Dean Dr. Donald Keith reported that high school seniors who enroll in the 28 courses to be offered during the two summer sessions will be ahead of the pack when enrollment begins in August.

In-class students taking a full-time course will be charged \$47.67 for tuition and fees. Out-of-district students will pay \$97.67 for a full-time program.

Eight-week courses will begin on June 1. Four-week courses will begin on June 1 and June 30. Dr. Keith said.

The last day of pre-session registration is May 31, although late registrants will be accepted until June 8.

Interested students are advised to contact Norris or Judith Aldape at the college administration building.

3 Students Die in Fiery Auto Crash

By The Associated Press.

A girl who was graduated from high school Wednesday night died hours later in a flaming automobile crash that also killed her two companions, students at College of Idaho.

Karen E. Duntun, 18, of Drayton, was a member of the graduating class of Crane High School, a boarding school southwest of Burns. She, Douglas Gunther, 18, Burns, and Jeffrey Anderson, 18, Jordan Valley, died when their car and a truck collided and burst into flames early Thursday.

The young men were identified as the College of Idaho students and graduates of Crane High School who had returned for this year's graduation. The truck driver, Bill Kay, 21, of Okla., escaped serious injury.

WALKING THROUGH the Memory Arch at Twin Falls High School Friday morning are Donald Nielson, left, son of Mrs. Barbara Nielson, 318 Filer Ave. W., and David Balseh, son of Mr. and Mrs. John K. Balseh, 313 7th Ave. N., both graduating seniors. The Memory Arch marked the beginning of the final day of school for the seniors. Junior class girls, holding flower-decked staves, flanked both sides of the walk. (Times-News photo)

Four Idaho Judges File For Offices

BOISE (AP)—Four Idaho judges, including Supreme Court Justice Henry McQuade, filed nominating petitions for re-election Thursday—the first filing day for judicial offices.

McQuade, a native of Pocatello, is seeking his second six-year term.

The others filing were District Judges James G. Towles of Kellogg, First District; Tom Felton of Moscow, Second District; and Charles Scoggins of Fairfield, Fourth District.

Blackfoot attorney Paul Crane filed for election in the Eighth District. That position will be vacated by Ezra Monson of Blackfoot.

All 22 Idaho district judges are up for election this year.

Three cannot seek re-election because they will be 70 years old during their present terms.

They are, besides Monson, Judges John W. Cramer of Lewiston, Tenth District, and Robert E. McFarland of Sandpoint, Eighth District.

Man Found Guilty in Rupert Case

RUPERT—A Heyburn school bus driver is awaiting sentencing on June 7 after being found guilty of a reduced charge of involuntary manslaughter by a 12-member jury last Thursday.

Victor L. Hill, 58, charged in connection with the death last Sept. 20 of Darrel Grigg, 22, Burley, was released by Judge Lloyd Webb on his own recognizance after the two-day trial here.

He was charged with manslaughter by auto with gross negligence. Fred Frick, jury foreman, said the members deliberated until nearly midnight.

According to Prosecuting Attorney Larry Duff, the reduced charge changes the crime from a felony to a misdemeanor.

Witnesses during the trial were William G. Craythorn, Dennis Hume, Kenneth D. Granbury, Alfred R. Goodrow and Mrs. Sandra J. Grigg, widow of the victim.

Mr. Grigg was killed when the school bus Hill was driving collided with the Grigg auto at the intersection of Highway 27 and the Alfreco Road last fall.

H. O. Willis, Burley police officer who was first on the scene, testified that Hill was driving recklessly. He said Hill was driving at a speed of 40 to 50 miles per hour when he collided with the Grigg auto.

Police said they could not confirm any shot had been fired and added Neely apparently left the area after getting first aid treatment.

The incident occurred shortly after police broke up a gathering of 150 juveniles, reported throwing rocks at cars in the heart of Watts, where rioting last August took 34 lives.

Police said the crowd gathered along Third Street shortly after a riot demonstration in nearby park, where about 80 persons gathered to protest the death of Leonard Deadwyler, 25. He was shot May 7 as he was driving his pregnant wife to a hospital.

A similar demonstration Tuesday on the eve of the incident preceded several hours of violence in which two newsmen were beaten by Negroes wielding pieces of lumber.

Moon Craft Makes Smooth Soft Landing

ALAMOGORDO, N. M. (AP)—A test version of the Surveyor vehicle designed for an unmanned soft landing on the moon made a smooth 800-foot descent final test today prior to the scheduled May 30 flight to the moon. The space vehicle was dropped from a balloon over nearby Holloman Air Force Base. Its three liquid fuel engines, operating on information from two radar systems aboard the vehicle, then slowed the vehicle from a descent speed of about 50 miles per hour to about 3.5 m.p.h. for the desert landing.

A spokesman described the test as a success.

Surveyor, the U.S. counterpart of Russia's Luna 9, is to be launched on its first lunar mission atop an Atlas-Centaur rocket at Cape Kennedy, Fla., on the moon Feb. 3.

National Aeronautics and Space Administration officials say they hope Surveyor will send back information about the moon's surface. Such information is needed before a manned landing can be attempted in the Apollo moon-flight program.

Today was the second successful test in which Surveyor lowered itself without the benefit of parachutes.

After the engines and radar aboard Surveyor were warmed up about 10 seconds the spacecraft was dropped. Its engines, sounding like a swarm of bees, took control and throttled to a slow descent.

Today's vehicle weighed 225 pounds, compared with the more than 2,000 pounds for the moon trip. Seven of the 2,000-pound surveyors are being built.

The 250,000-mile trip to the moon will require about 60 hours. A retro-rocket, not tested today, is to slow the spacecraft from a speed of about 6,000 miles per hour to 250 m.p.h. on approaching the moon.

The test today showed that the vehicle would slow Surveyor to about 3.5 m.p.h. in the final descent.

New Violence Erupts in Watts Area

LOS ANGELES (AP)—Groups of rock throwing juveniles wandered through uneasy South Los Angeles Negro community Thursday night as residents awaited the outcome of an inquest into the death of a Negro motorist shot by a policeman.

Police said apparently only one man, a white newspaper vendor, was injured Thursday night. They identified him as Edward Neely, who said he was beaten by a gang of Negroes and shot at as he fled.

Police said they could not confirm any shot had been fired and added Neely apparently left the area after getting first aid treatment.

The incident occurred shortly after police broke up a gathering of 150 juveniles, reported throwing rocks at cars in the heart of Watts, where rioting last August took 34 lives.

Police said the crowd gathered along Third Street shortly after a riot demonstration in nearby park, where about 80 persons gathered to protest the death of Leonard Deadwyler, 25. He was shot May 7 as he was driving his pregnant wife to a hospital.

A similar demonstration Tuesday on the eve of the incident preceded several hours of violence in which two newsmen were beaten by Negroes wielding pieces of lumber.

Patient With Artificial Heart Dies

HOUSTON, Tex. (AP)—Walter L. McCans, the second patient to undergo a partial artificial heart implant in Methodist Hospital here in recent weeks, died today. Doctors blamed a persistent bleeding condition in the chest.

McCans, 61, died at 8 a.m. nearly three days after undergoing surgery. The plastic pump that assisted his heart was removed 27 hours after surgery and the hospital indicated his damaged, heavy chamber had shown signs of rupturing itself.

The heart-beat-pump test today said the probable cause of death was pulmonary insufficiency.

A second bulletin released an hour later said a cardiovascular team had determined the cause was "hemorrhagic diathesis," which paralyzed and was uncontrollable.

Announcement of the 8 a.m. death of the retired Woodville, Wash., Navy man was delayed nearly two hours.

Support Mounting For Plan to Cut Troops in Europe

WASHINGTON (AP)—Congressional support mounted today for Senate Democratic Leader Mike Mansfield's proposal that the United States consider pulling most of its troops out of Europe. Sens. Stuart Symington, D-Mo., and Thomas J. McIntyre, D-N.H., two members of the Senate Armed Services Committee, endorsed the proposal in separate interviews and also voiced irritation with America's partners in the North Atlantic Treaty Organization.

"We're keeping our commitments and they aren't keeping theirs," Symington said.

"I think it's a growing feeling in Congress that we have to talk together with these guys," McIntyre added.

Their comments indicated the growing congressional concern, shared by administration supporters and critics alike, that the cost of U.S. commitments around the world are too high and the NATO allies are not pulling their weight.

"We think that we are trying to keep peace in the world," McIntyre said, "and those fellows are happy to let us do it, making a dollar any chance they get."

McIntyre told the Senate Thursday that West Germany's proposed sale of a \$176-million steel complex to Red China symbolizes "the naive attitude of certain West European nations toward the very serious situation which now exists in Viet Nam."

Consideration of the removal of U.S. troops "would make it abundantly clear to West Europeans that we can and would withdraw our land forces from Europe—and put them to work in South Viet Nam where they are urgently needed to protect the lives of American soldiers who are already there."

McIntyre said, U.S. Polaris submarines could be made ready "to bring the striking force of the United States to bear if Europe were attacked."

Symington expressed fear that the United States was spreading itself too thin with worldwide commitments and is losing gold stocks while allies like France and Germany are building up theirs.

He was unconvinced by two NATO specialists who warned at the Senate hearing Thursday against a substantial reduction of U.S. forces in Europe.

Mansfield of Montana, a member of the Senate Foreign Relations Committee, has suggested that the time has come for the United States to shoulder the responsibility and pick up the tab for much of their own defense.

Schools and County Eye Reapportioning

Twin Falls School District No. 411 is moving to reapportion its trustee zones, it was announced Thursday by J. T. Anderson, district business administrator.

The district's five zones have not been redrawn since its formation in 1947—a lag that has presumably resulted in population inequities among the trustee zones, Anderson said. The school redistricting efforts are hampered, according to Anderson, by the state requirement that sub-districts be apportioned according to both population and assessed valuation—both of which must be "reasonably" equal in each zone.

Earlier in the year the district trustees directed Anderson to undertake a study of the relative population of each of the districts to determine what changes are needed. He is now evaluating recently received census results to that end.

Anderson noted it is impossible for the district to be divided according to both population and assessed valuation. The only way to meet both requirements is to create gerrymandered districts, each with a claw reaching into the central high property value district, he said.

The district administrator said that, in practice, the district must apportion simply on the basis of population and assume the property values are "reasonably" equal.

Anderson has received a detailed breakdown of the Twin Falls mid-decade census, taken in February, from the U.S. Census Bureau, which sheds light on the relative population shifts since the 1960 census. However, he noted, the census does not canvass the areas within the school district that are outside the city limits.

On the basis of the in-city census information, it is clear that the Zone No. 1, the area south of the town of Burley, is the most over-represented.

See SCHOOLS, pg. 2, col. 8

Color Pink?

HAILEY—"Why would anyone want to steal an elephant?"

That was the quandary facing Blaine County Sheriff Orville Drexler Thursday.

When the Carson Barnes Circus moved from Hailey to Arco Thursday and went to use the four elephants in the troupe to raise the big-top tent, one of the beasts' harnesses was missing.

Circus officials notified Drexler who now has the task of trying to locate the huge chain link harness.

Horse, dog and oxen harnesses are seen frequently in this resort valley, but Drexler is unaware of anyone having need of one for an elephant.

Self Service Post Offices Are Planned

WASHINGTON (AP)—Plans to dot the nation with self-service post offices, clear the air of pollution from pull trucks and offer mail advance delivery in ZIP Code areas announced Thursday by Postmaster General Lawrence F. O'Brien.

In the next nine months, he said, 100 self-service post offices will be constructed in shopping centers across the land. To date 58 cities have been designated for 66 of these centers, which have been tested for more than a year in four cities.

After July 1, all gasoline-powered vehicles used by the Post Office Department must be equipped with devices to control air pollution. There are about 56,000 government-owned postal vehicles throughout the nation, and 18,000 are acquired annually.

O'Brien told a news conference a national survey determined that most people who don't use Zip Code—about half the population—omit the 5-digit designation out of ignorance of other people's Zip Codes.

The plan would bring to every household in the nation a form to be filled out with a list of addresses most used in correspondence. The Post Office will supply, without charge, the Zip Codes for each address on the list.

Youths Face Charges of Burglary

BURLEY—Three 16-year-old boys, reportedly from middle and upper-class families, were scheduled to appear before Probate Judge Vern Carter Friday afternoon on charges of burglary.

The youths, two of whom were in custody, are among 13 Burley High School boys who face charges ranging from burglary to illegal consumption of alcohol.

Sheriff's officers said the burglary involves some \$750 worth of merchandise believed to have been stolen from a different Casale county business in the past few months.

The merchandise ranges from 22 caliber rifles, three 11 cases of beer, to wheels, hubcaps, chain saws, and other items.

Four officers in four abandoned houses within the county were reported.

Deputy Sheriff Wes Woodall said the 10 other high school boys range in age from 16 to 18, other subjects.

Rupert Is Painted Red in End-of-Year Activity

RUPERT—Minidoka County Sheriff's Office were in the midst of painting the town red in the Minidoka High School west of Rupert.

The town was painted red on the bricks and windows. The high school also came in for some painting and the usual "Minidoka 1966" as well as "scene" words were put on the seminary building.

A new bulletin board at Minidoka was painted red and also. No estimate was available as to the cost of the painting.

The vandalism occurred at the LDS Seminary building, located across the road from the high school.

Prescriptions Are Given for Aching Back

By HANS KRAUS, M.D.
In earlier articles, you have been given the K-W tests to assess whether your muscles are even at a minimum, able to carry your body weight. In the last article, you have been given a medicine chest of corrective exercises.

Now you will be given a list of exercise prescriptions — strong medicine, to be looked at carefully and with a doctor's help. Just as you wouldn't toy with strong and potent medicines, don't toy with these exercises. Be sure to consult your doctor. The exercises can help you to build stronger muscles, or, if misused, they can be non-effective, or worse, damaging.

PRESCRIPTION NO. 1

RX for weak hip flexors—If you failed ONLY K-W test 1, not being able to hold your heels 10 inches above the floor for 10 seconds, 10, because you have weak hip flexors.

Start with the six general exercises, and add a new exercise from the corrective list, every two or three days in the order and from the list that follows: Exercises 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

PRESCRIPTION NO. 2

RX for weak hip flexors and abdominals. If you failed K-W test 2, you are unable to sit up with straight legs because you have both weak hip flexors and weak stomach muscles.

Weak stomach muscles are tested in K-W test 3. Test 2 measures the relative weakness of hip muscles and stomach muscles. If you fail the tests showing you are weak in both hips and stomach, and yet pass all other tests, take the following exercise program. Starting with the six general exercises, add a new one to the sequence every two or three days in order from the following list: 3, 4, 7, 8, 13, 6, 12, 18, 21. Each day work up the sequence in order and reverse.

When you are finally doing the full daily program, test yourself again. If you are able to pass K-W test 3 for weak stomach muscles, you will probably be able to pass test 1 for weak hip flexors as well. But if you can't pass test 1, continue the above program, but insert exercise 1, 12, 16, exercise 2 after exercise 21.

PRESCRIPTION NO. 3

RX for weak stomach muscles. If you failed ONLY K-W test 3, you are unable to sit up with knees flexed because of weak stomach muscles.

Your order of exercise is 1-6, 3, 4, 7, 8, 13, 6, 12, 18, 21. Starting with exercises 1-6, add a new exercise in order from that list every two or three days.

each day working through the growing sequence and reversing to exercise 1.

PRESCRIPTION NO. 4

RX for weak upper back muscles. If you failed ONLY K-W test 4, you are unable to hold your trunk steady for 10 seconds because you have weak upper back muscles. You should seek professional help.

If your doctor so advises, your order of exercises will be 1-6, 5, 7, 6, 11, 12, 8, 16, 18, 21. Add a new one from that order each two or three days, working through the sequence and reversing to exercise 1.

PRESCRIPTION NO. 5

RX for weak lower back muscles. If you failed ONLY K-W test 5, you are unable to hold your legs up straight for 10 seconds because you have weak lower back muscles, and should talk to your physician.

If your doctor so advises, your order of exercise will be 1-6, 5, 9, 6, 12, 16, 13, and 21. Beginning with the six general exercises, add a new one in that order every two or three days until you are doing the full sequence. Each day reverse order when you get to the newest exercise, working back to exercise 1.

PRESCRIPTION NO. 6

RX for lack of flexibility caused by tension and stiffness. If you failed ONLY test 6, you are unable to touch the floor with your fingertips because you are tense and lack flexibility.

Your order of exercise will be 1-6, 3, 9, 4, 7, 8, 13, 6, 12, 21. Adding a new one to the basic six each two or three days build up that sequence, reversing order each day back to exercise 1. When you reach the full program, test yourself again. If you pass test 3 for weak stomach muscles, you will probably also be able to pass test 1 for weak hip flexors. But if you can't continue your full program, and in addition, insert exercise 7 between exercises 12 and 16, and add exercise 2 after exercise 21.

PRESCRIPTION NO. 7

RX for weak flexors and lack of flexibility. If you failed both K-W tests 1 and 6, and passed the other tests, you have both weak hip flexors and lack of flexibility.

Your order of exercises is 1-6, 11, 12, 13, 14, 15, 16, 17, 18, 21. Adding a new one to the original six each two or three days, build up that sequence, reversing order each day to exercise 1.

PRESCRIPTION NO. 8

RX for weak upper back muscles and lack of flexibility. If you failed both K-W tests 4 and 6, you have weak upper back muscles and a lack of flexibility. You should seek professional help.

If your doctor so advises, your order of exercises will be 1-6, 7, 5, 13, 12, 5, 10, 16, 17, 18, 21, 20, 21. Adding a new one to the basic six each two or three days, build up that sequence, reversing order each day back to exercise 1.

PRESCRIPTION NO. 11

RX for weak stomach muscles and lack of flexibility. If you failed both K-W tests 3 and 6, you have weak stomach muscles and a lack of flexibility.

Your order of exercise is 1-6, 3, 9, 4, 11, 5, 12, 6, 13, 14, 15, 16, 21. Adding a new one to the basic six each two or three days, build up that sequence, reversing order each day back down to exercise 1.

PRESCRIPTION NO. 9

RX for weak lower back and lack of flexibility. If you failed both K-W tests 5 and 6, you have weak lower back muscles and lack of flexibility. You should seek professional help.

If your doctor so advises, your order of exercises will be 1-6, 4, 9, 5, 13, 12, 10, 14, 15, 16, 21. Adding a new one to the basic six every two or three days, build up that sequence, reversing order each day back to exercise 1.

PRESCRIPTION NO. 10

RX for weak hip flexors and weak stomach muscles and lack of flexibility. If you failed K-W tests 2 and 6, you have not only weak hip and stomach muscles, but you also lack flexibility.

Your order of exercise will be 1-6, 3, 9, 4, 7, 8, 13, 6, 12, 21. Adding a new one to the basic six each two or three days build up that sequence, reversing order each day back to exercise 1. When you reach the full program, test yourself again. If you pass test 3 for weak stomach muscles, you will probably also be able to pass test 1 for weak hip flexors. But if you can't continue your full program, and in addition, insert exercise 7 between exercises 12 and 16, and add exercise 2 after exercise 21.

PRESCRIPTION NO. 10

RX for weak flexors and lack of flexibility. If you failed both K-W tests 1 and 6, and passed the other tests, you have both weak hip flexors and lack of flexibility.

Your order of exercises is 1-6, 11, 12, 13, 14, 15, 16, 17, 18, 21. Adding a new one to the original six each two or three days, build up that sequence, reversing order each day to exercise 1.

PRESCRIPTION NO. 10

RX for weak flexors and lack of flexibility. If you failed both K-W tests 1 and 6, and passed the other tests, you have both weak hip flexors and lack of flexibility.

Your order of exercises is 1-6, 11, 12, 13, 14, 15, 16, 17, 18, 21. Adding a new one to the original six each two or three days, build up that sequence, reversing order each day to exercise 1.

PRESCRIPTION NO. 10

Bible School Opens May 31 At Shoshone

SHOSHONE—Methodist Church vacation Bible school will be held May 31-June 10. Classes will be held from 9 to 11:30 a.m. each day at the church fellowship hall.

The kindergarten class will study "God's Plan for the Family" and will be taught by DeAnn Stutzman and Mrs. Russell Scott.

Beginners, for grades one and two, will use the theme "The World of Differences," with Mrs. John Haley and Mrs. Pete Borden teachers.

Primary class members will be grades three and four and will have the theme "Christian Community Around the World" with Mrs. Jack Dunn teacher.

The Junior class, ages fifth and sixth grades, will have the theme of "Living As Christians in a World of Conflict" and will be taught by Mrs. Ralph Cairns.

Students of the Junior High class will be from the seventh and eighth grades and will have the theme "The Church and My Life" with Mrs. Wandell Elliott teacher.

Rhonda Eggleston will be pianist. Mrs. Evan Knight is in charge of refreshments to be served each day during the recreation period.

Mrs. Carl Korner, superintendent, said, all children of the age groups are invited.

There will be no registration charge, but a free will offering will be taken to help defray expenses of materials.

Korean Quartet Sings in Camas

FAIRFIELD—A musical program was presented Tuesday evening in the Community Church by the Korean Blind Quartet.

The blind teen-agers from the Lighthouse School for the Blind at Incheon, Korea, presented a variety of vocal and instrumental arrangements including hymns, southern songs, folk songs and native tunes.

Refreshments were served in the church recreation rooms after the concert. The birthday anniversaries of Mr. and Mrs. Gwinn Rice and Mrs. James Post were observed with especially decorated cakes made by Mrs. Edward Krahn, with Phyllis Nelson as hostess.

Eiler School Hires Albion Man to Teach

FILER—Edward Marshall, Albion, has been hired to teach English in the Eiler Junior School, announces Tom Turner, superintendent of School District 413.

Terry Martin, Jerome, has been hired to teach chemistry. The board has accepted the resignation of Mrs. Karen James, James Myers, Mrs. Janaye Cox, Mrs. Audrey Harvey and Mrs. Lorraine Hughes.

Positions still to be filled in the district include first grade at Victory, first and fifth grade at Hollister, and senior English at the high school.

The budget for 1966-67 has been approved by the board, added Turner.

Schools in the district will close May 25 for summer vacation. Opening day for the 1966-67 year will be Aug. 22. Holidays and vacations for the year include West End Day at the Twin Falls County Fair; two days in October for Teacher's Institute; Thanksgiving, Nov. 24-25; Christmas, Dec. 24-25, and Easter, March 24-25.

Local Catholic Women Host Annual Fete

St. Edward's Council of Catholic Women held its 25th annual Marian Luncheon in the parish hall.

Mrs. Marjorie Hawes was toastmaster and introduced Mrs. Owen Eschelman, outgoing president, who spoke briefly of the report of the state convention, and Rt. Rev. Msgr. Edmund R. Cody who gave an address entitled "Holy Queen Mother of Mercy."

Mrs. J. Garland Gibbs played several violin selections, accompanied by Mrs. Robert Denton.

Mrs. D. H. Baltzer, past president of the Twin Falls Deanery, was in charge of the installation service. Officers are Mrs. Howard Allen, president; Mrs. B. L. Kellerman, first vice president; Mrs. Len Vogel, second vice president; Mrs. Fred Erlich, recording secretary; Mrs. Robert Fries, corresponding secretary; and Mrs. Ralph McFarlane, treasurer.

The shrine featuring the Madonna was decorated with greenery and candles. The tables were decorated with yellow flowers and candles and featured two special arrangements made by Mrs. Howard Gillette.

Mrs. Robert Mingo was general chairman of the luncheon, assisted by Mrs. Donald Zuck who was in charge of the decorations and shrine; and Mrs. Lloyd LeClair, who took care of the tickets and reservations.

Lodge Official Visits Wendell Rebekah Lodge

WENDELL — Mrs. Glenn Bright, lodge deputy president of Idaho Rebekah Lodge No. 96, made her official visit to the local lodge.

Bright was presented two potted plants from the lodge with presentations made by Mrs. E. E. Parr, junior past noble grand.

An invitation was read from Hagerman lodge for a joint meeting to be held June 21 at Hagerman at which time there will be an international observance. An invitation was read from Filer lodge for its golden anniversary observance set for Saturday.

Entertaining plans were made to attend the June 6 meeting of the Fairfield Rebekah Lodge for the official visit of the assembly president.

Mrs. E. E. Parr and Mrs. Edward Otton volunteered to assist with the "Red Finger Drive for Mental Health. The drive for funds will begin at 8 p.m. Tuesday from the American Legion hall. The American Legion Auxiliary members are in charge of setting up the campaign and volunteers from various organizations will assist with the house to house campaign.

Mrs. Belle Quay and Mrs. Stockham are in charge of placing markers in the cemetery Memorial Day.

Mrs. Melvin Gibson and Mrs. Mary Williams served refreshments.

Unit Memorial Is Conducted

A memorial for the late Mrs. Maria Gutery was held when members of the Past Noble Grands Club met at the home of Mrs. Thelma Dean.

Reports were given on calls made to ill members, care and flowers sent and thank-you notes.

Mrs. Dean gave a travelogue on a recent trip to Mexico and

RECEIVING THE GAVEL from Mrs. C. (Bud) Hansen, outgoing president, second from left, is Mrs. William Jacobsen, president, as Mrs. Lynn Pettigill, secretary, left, and Mrs. Luella Wilson, vice president, look on during the luncheon.

Literary Arts Unit Officers Are Elected

Members of the LeLivre et la Plume Literary Arts Society elected officers at the May luncheon meeting at the Depot Grill Caboose Room.

Officers are Mrs. William Jacobsen, president; Mrs. Luella Wilson, vice president; Mrs. Lynn Pettigill, secretary; Mrs. James Dodds, treasurer; and Mrs. Robert Smith, publicity and historian.

Mrs. Robert Condie presented the outgoing president, Mrs. C. (Bud) Hansen, a gift. The table decorations were given as special prizes to Mrs. Condie, Mrs. Robert Siddoway, Mrs. Raymond Moss and Mrs. Alton Alexander.

Three new members were accepted into the club. They include Mrs. Earl Mecham, Mrs. Ben Eldredge and Mrs. Edgar Dutry.

Mrs. Waldron gave the guilded thought and Mrs. Condie presented the author's sketch, "House of Many Rooms," by Rodolfo Hunter, was reviewed by Mrs. Lloyd Bledsoe.

Mrs. E. E. Parr and Mrs. Edward Otton volunteered to assist with the "Red Finger Drive for Mental Health. The drive for funds will begin at 8 p.m. Tuesday from the American Legion hall. Magic Valley Favorites

MRS. GOLDEN HIGLEY
Hayburn

Quick Apple Pudding
2 cups applesauce
4 tablespoons butter or margarine
1/2 cup brown sugar
1 teaspoon grated lemon rind
1/2 teaspoon cinnamon
6 graham crackers
Pour applesauce in greased

eight-inch pie pan or glass baking dish. Cream butter with sugar, lemon rind and cinnamon. Break graham crackers into sugar mixture, mix together and spread over applesauce. Bake in a moderate oven, 400 degrees, for 20 minutes. Serves four to six.

(The Times-News will pay \$5 each week for the best recipe submitted for Magic Valley Favorites. If you have a favorite recipe, just mail it to the Recipe Department, Women Page Editor, The Times-News, and cannot be returned.)

Club Progress Reports Given
Complete reports were made on the progress of plant experimentation at the meeting of the Magic Valley Saintpaulia Club at the home of Mrs. Sam Hawkins, Jerome.

Leaf growth and flower production were compared according to the different types of soil used.

A contest of violet blossoms types with descriptive sentences was held.

Refreshments were served by the hostess. The plant show was postponed until fall.

Piano Recital Presented by Two Local Girls
Mrs. Teala Bellini presented Christine Peterson and Mary Kinney in a piano recital at the Bellini Studio.

Miss Peterson is the daughter of Mr. and Mrs. John H. Peterson, and Miss Kinney is the daughter of Mr. and Mrs. James S. Kinney. Both girls are sophomores at the Twin Falls High School.

The program included "The Little Shepherd" and "Doctor Gradus ad Parnassum" by Debussy; "Valse Op. 34, No. 3" by Chopin and "Venetienne" by Godard; Miss Peterson, Miss Kinney played "Fantasia" by Telemann; "Prelude and Dance" by Cretion; "Chimes of Saint Patrick's" by Whithorne; and "Hungarian Concert Polka" by Alföldy.

A group of two piano selections concluded the program, with Miss Peterson and Miss Kinney performing "Jesu, der du Meines Seels" by Bach-Howe; "Solveig's Song" by Grieg; "Contra Dance No. 1" by Beethoven, and "The Toy Trumpet" by Scott.

WCTU Hosts Fifth District Mid-Year Meet

The fifth district mid-year meeting of the Woman's Christian Temperance Union was held at the Twin Falls First Nazarene Church.

Mrs. Lillian Rayborn, district president, presided at the sessions. Registrations were conducted by Mrs. Ethel Spencer for members from Rupert, Gooding, Boise and Twin Falls.

Rev. Howard Olsen gave the morning devotional service and the first salute was led by Mrs. Wayne Cuthrell. Mrs. W. C. Carrel welcomed the visitors and Mrs. Ralph Day, Gooding, reported on the state convention.

The district president appointed committees. A potluck luncheon was served at noon. The afternoon devotional service was given by Rev. P. F. Lemon of the Seventh Day Adventist Church. Mrs. Day spoke on membership and the highlight

of the day was the address by Mrs. M. Rolon, state president. District officers include: Mrs. Rayborn, president; Mrs. Ralph Drake, vice president; Mrs. Dale Kauffman, corresponding secretary; Mrs. Homer Schnell, treasurer; and Mrs. Carrel, recording secretary.

Report of the resolution committee included statements that the members stand against all forms of immoral literature; churches and schools to enlarge their programs of education in the evils of alcohol; that more be done to prevent intoxication of drivers on the highways; and members believe the use of beverage alcohol to be the chief cause of poverty and they urge the elimination of this cause through war on poverty.

Giants Say 2 AFL Teams Tried to Lure Four Men Into Switching Leagues

WASHINGTON (AP)—The New York Giants charged Thursday that an attempt to lure four of their players, including fullback Tucker Fredrickson, into the American Football League had been made by the San Diego Chargers and Houston Oilers. Wollington Mara, president of the National Football League's Giants, said center Greg Larson and halfback Steve Thurlow had been contacted by the Chargers. He also confirmed that he had been told that receiver Bobby Crispino and Fredrickson had been contacted by the Chargers and Oilers, respectively.

Memphis State Joins Missouri Valley Loop

WICHITA, Kan. (AP)—The far-flung Missouri Valley Conference, long among the nation's top major basketball leagues, boosted its football stock several points Thursday by admitting potent Memphis State. It was an association ardently sought by both sides. The new hookup should help both in the scramble for bowl game and television revenue, and at the gate, both in football and basketball.

Memphis State plays in Memphis Memorial Stadium, completed by the city last year at a cost of \$3.7 million. It is the home of the Liberty Bowl and seats 50,100, placing it first in the Valley over Tulsa's 40,235. In basketball, 12,000-seat Mid-South Coliseum at Memphis is second in the Valley to Louisville's Freedom Hall, seating 10,000.

Memphis State has won 53, lost 21 and tied one in eight years under Billy (Spook) Murphy, former Mississippi State captain and Minnesota assistant. The Tigers stood 8-2 in 1960, 9-1 in 1961, 8-1 in 1962 and 9-0-1 in 1963, a tie with Mississippi spelling a perfect record. Yet Murphy's teams couldn't crash the nation's final Top Ten rankings or get a major bowl bid in that span. They believe a league-tieup will help.

The other Valley members are Tulsa, Cincinnati, Wichita, St. Louis, Bradley, North Texas, Louisville and Drake. St. Louis doesn't play football, Drake and Bradley play football but don't compete for the title.

Devlin Grabs

Early Lead in

Colonial Meet

FORT WORTH, Tex. (AP)—Bruce Devlin, the blond Australian, fired a three-under-par 67 Thursday and took a one-stroke lead in the first round of the Colonial Country Club tournament.

He grabbed first place away from two other Down Under golfers, left-handed Bob Charles of New Zealand, and Australian Peter Thomson, who both shot 68s for a second-place tie.

It was an up-and-down day as the field of 73 traveled away from the Colonial Country Club course.

Doug Sanders, the favorite, started out fast, shooting the first nine in 33, but he faltered on the back nine and came in with a par 70 that put him three strokes off the pace.

Gene Titter made a run for the lead only to lose it late in the hole and wind up with a 69. He three-putted 18 because I putted the first one stupid, wasn't thinking."

Dan Sikes was another who was hot for a while. He was three-under-par through 11 but took a bogey on 12 and a double bogey on 15 when he was in a fairway trap and was up three-putting. He had a 69.

Don January came into 18 two under par but three-putted from 30 feet for a bogey. He also had a 69.

Bert Weaver was in the same situation, hooked his second shot into a bunker, and also wound up with a bogey for 69.

So the field goes into its second round Friday with Devlin in first place, Charles and Thomson tied for second and four players—Weaver, Sikes, January and Litter—tied for fourth at 69.

Devlin, who last year won over \$67,000 on the tour, has only one tournament victory in five years of trying—the St. Petersburg Open in 1964. He rounded the first nine with a one-under-par 34, then hanged birdies on 9, 10 and 15 for his brilliant 67.

Surgery Complete On Orsino's Arm
WASHINGTON (AP)—Catcher John Orsino of the Washington Senators underwent surgery Thursday on his troubled throwing arm.

Dr. George Roata, team physician, performed the operation. Details were not available, the Senators said.

16-Man Idaho State Track Team Favored to Keep Big Sky Title

POCATELLO—A 16-man Idaho State University track and field team will journey to Moscow, Idaho this weekend in an attempt to defend its Big Sky Athletic Conference championships of 1964-1965. Coach Milton (Dubby) Holt's Bengal powerhouse had little difficulty in winning Big Sky track titles the past two years, but he says it will take "come through" performances all down the line.

If his club is to make it three straight, last year Idaho State scored 131 points to second-place Montana's 106. From that winning Bengal team there are still six performers who accounted for 91 of those points slated to compete again this weekend in the two-day meet hosted by University of Idaho.

Ready to defend his crown in both hurdle races is Bengal senior Ben Miller, an all-around track star who was the No. 1 individual high jumper in the 1965 BSAC meet with 25½ points. The Ontario, Ore. finish has run a 13.7 time in the 120 yard high hurdles this year for one of the nation's best collegiate marks to date.

Also back again to compete in the sprints and a relay or two are veterans Len Frazier and Brent DeWitt who chalked up 23½ and 10½ in the '65 championships. In addition, John Briggs, who had a fabulous season in 1964, but was bothered by injuries last year, is available and should pick up points in several events.

Briggs, suffering with assorted leg and back ailments last year, still dashed to the league's 440 title in 49.1 seconds and ran the mile relay. In 1964 Briggs mixed in the Empire track buff by piling up points in six events as Holt's forces won the first Big Sky meet at Missoula.

Other 1965 point-scorers still on the ISU sound are shot put pavelin man Bruce Malson and distance vet Roger Maxfield. The latter posted an outstanding double of 4:44.8 and 9:04.8 early in April while running at sea level in California.

Boosting the Bengal veterans this year is a couple of the better freshmen quarter-milers in the nation—Tim Dunne (47.7) and Ike Gayfield (48.6). Then there is frosh Randy Hulthert who has clocked 1:54.1 in the 800 and broken 49 seconds in the mile relay.

Last weekend Holt tuned his cindermen up with a trip to the famed West Coast Relays at Fresno. The Bengals finished second in San Diego State in the meet's college division.

Among the top Bengal performers in the West Coast Relays were the 880-yard relay victory in 1:27.4, a new ISU record, and Miller's second placed place in the college-high hurdles in 14.6.

Holt looks for the other Big Sky schools to score quite a bit higher in this West Coast meet at Moscow. "We've been notoriously weak this season in the field events and do not even have entries in the pole vault, high jump or discus this year," said the long-time Bengal mentor.

Vie for Open Spot
BOISE (AP)—Nineteen Idaho pros will compete in Boise next Monday in district qualifying trials for the 1968 U.S. Golf Association Open Tournament in San Francisco next month.

The trials will be on the Crane Creek Country Club course. Idahoans entered are Gary Floon, Lewiston; Chuck Crawford and Larry Stroup, Crane Creek course, Boise; Arnold Hales, Hildreth, Crane Creek course, Boise; Ken Spunk, Nampa; Dick McConkey, Payette; Dave Killen, Twin Falls; Jay Griggs, Rexburg, and Lloyd Harris, Mountain Home.

Hunting Dates For This Season Recommended

BOISE (AP)—The Idaho Fish and Game Commission heard recommendations Thursday for the fall hunting seasons and planned to take action on them Friday. Bill Lohel, Nampa, big game committee chairman for the Idaho Field Archers Association, urged that archery seasons—on big game but about the same as last year.

He commended the commission for purchasing winter range lands in the Boise River area.

Lohel told the commission archers are looking forward to the time they can hunt wild turkeys and high sheep in Owyhee county—using bows and arrows. Turkeys and sheep recently have been transplanted to the Owyhee mountains area.

A delegation of southwestern Idaho sportsmen urged the commission to open the sage grouse season in Owyhee County one week earlier than usual. Normally the season opens on the third Saturday of October.

Fall rains begin about that time, the sportsmen said, spoiling grouse hunting.

The commission during the afternoon traveled to the Twin Falls area to inspect land proposed for purchase to provide hunting and fishing access to the Snake River.

Friday the commission will fix the bag limits and closing dates for the fall big game hunting seasons. Opening dates were set earlier.

The commission also will fix the opening dates for the upland game bird seasons but will delay until August setting the bag limits and other regulations.

Three federal aid projects were renewed. They involve a program of tracking, tagging and transplanting big game animals; big game surveys and investigations; and snow removal.

ENDS IN DRAW

Challenger Seeks Leniency on Cuts For Title Match

LONDON (AP)—Henry Cooper, British heavyweight champion, called on the referee Thursday to give him a fighting chance against world champion Cassius Clay Saturday night—even if blood starts gushing from his eyes. Cooper is trying to win the world title for Britain for the first time since Bob Fitzsimmons took it back in 1897.

Twins Rally In 10th to Nip Sox 4-3

ST. PAUL, MINN.—The Twins rallied in the 10th inning Thursday to defeat the Chicago White Sox, 4-3.

The triumph was the Twins' fifth in a row. Zoilo Versalles opened the 10th with a single. After Cesar Tovar struck out, Oliva walked a drive-off the top of the right-center field fence, scoring Versalles.

Umpire Lou De Muro first signaled a home run, then changed his decision as the ball rolled back onto the playing field.

Juanita Hall tied the game for the Twins with a home run off reliever Bob Locker leading off the ninth.

Chicago 020 001 000 0-3 1 Minnesota 020 001 1-4-1 Buzhardt, Locker (7) and Merkle (3) pitched for the Sox. Klipsch (10) and Baiter, W. Klipsch 1-0, L. Locker 3-3.

Home runs—Chicago, Martin (1), Buford (1), Minnesota, Hall (2).

Jackson and Cards Blank Phillies 2-0

PHILADELPHIA (AP)—Charlie Smith slammed three hits, including a homer, in support of A. Jackson's strong pitching as the St. Louis Cardinals defeated Philadelphia 2-0 Thursday night.

Smith singled in the second and in the fifth and hit his fourth homer in the seventh.

Jackson, who came to the Cardinals with Smith from the New York Mets this past winter, held the Phillies to four hits through eight innings. But when he opened the ninth by walking John Callison on four pitches, Manager Red Schoendienst brought in Don Dennis.

Dennis retired Doug Clemens, then gave way to Joe Hoerner who got the last two outs and preserved Jackson's third victory in four decisions.

St. Louis 000 000 000-2 1 Philadelphia 000 000-0 4 0 A. Jackson, Dennis (9), Hoerner (6) and McCarver; L. Jackson, Knowles (7), Fox (8) and Uecker, W. — A. Jackson 3-1, L. — Jackson 1-5.

Home runs — St. Louis, Smith (4).

Wendell Rated Favorite in B Division of State Track Meet

BOISE (AP)—Forty-six schools will be represented in the small school division of the Idaho Prep Track and Field Meet Saturday with Wendell rated the best chance of replacing Fruittland as champion. The Class B meet is run jointly with the Class A meet and 33 schools are represented in the latter. Thus athletes from a total of 79 schools will be competing for honors. Bolso is defending Class A champion and is the favorite to win again. In the Class B meet, however, Fruittland, the 1965 winner, qualified athletes in only two events this year, and this could be a disadvantage of 12 points for short of the total usually required for the championship.

Koufax Stops Giants With Three Hits

LOS ANGELES (AP)—Sandy Koufax pitched a three-hit, one-run game to lead the Los Angeles Dodgers to a 3-0 victory over the San Francisco Giants Thursday night.

Koufax walked two and struck out 10 in gaining his sixth victory. Willie Davis, Jim Gilliam and Jeff Torborg all hit run-scoring singles which pinned the loss on Joo Gibson, who Parker homered in the eighth.

Willis scored on hits by Willie Davis and Jim Gilliam, repeated stolen bases as the leadoff man in both the first and third innings. The thefts were his 15th and 16th of the season.

"Errors by second baseman Tito Fuentes and first baseman Carl Peterson set up Torborg's run-scoring single in the fourth. San Fran. 000 000 0-0 3 2 Los Angeles 101 100 015-4 12 0 Gibson, Priddy (4), Shaw (8) and Barton; Koufax 6-1, L. — Gibson 2-1.

Finals Set in Women's Golf Tourney

The twosomes of Iris Averett and Anne-Deane Coulam, and V. Smith and Mary Jensen advanced to the finals of the Twin Falls Municipal women's spring golf tournament this week.

Mrs. Averett and Mrs. Coulam ousted Myrtle Peterson and Dorothy Conrad while Jackie Gasser and Ruth Prist fell in the other semi-final.

In consolation play Virginia Underhill and Kit Moon ousted Pat Williams and Louise Hatch and Shirley Strang and Florence Thomson defeated Betty Colner and Ruth Stevens.

Doris McCord and Helen O'Brien defeated Betty Hawkins and Ruth Harris to gain the first flight finals where they will play Maxine Mendow and Billie Blanton, who eliminated Florence Weaver and AuDeane King.

Consolation will be decided between Erva Bower and Arden Duffel and Fran Threlkeld and Arvella Tate.

In the second flight, Rudean Newman and Ruby Wyatt defeated Maria Duncan and Verda Pool and Jeannine Bergoyne and Arvella Tate.

Cubs Batter Astros 7-1 to End Slump

CHICAGO (AP)—Rookie catcher Randy Hundley drove in three runs with a double and triple and also stole home to lead the slump-busted Chicago Cubs to a 7-1 victory over the Houston Astros Thursday.

Hundley's two-run triple and subsequent steal of home featured a five-run uprising in the third inning which helped the last-place Cubs snap a six-game losing streak and record only their seventh triumph against 22 defeats.

Hundley doubled home a run in the second to put the Cubs in front and Adolfo Phillips hit his fourth homer to lead off the big third. Run Santo crashed his fifth homer in the fifth inning.

Houston 000 000 100-1 6 0 Chicago 015 010 008-7 11 0 Farrell, Kroll (3), Lee (7) and Bateman; Hands, Abornathy (9) and Hundley, W. — Hands 2-3, L. — Farrell 1-2.

Kauai King Owner Gambling By Putting Horse in Preakness

BALTIMORE (AP)—Mildred Ford, owner of the "Kauai King" horse, admitted Thursday she was gambling by putting the horse in the Preakness Stakes.

"I'm not known as a gambler. But the likeable 4-year-old Omaha, Neb., businessman takes a big gamble Saturday when he sends his Kentucky Derby winner Kauai King out against eight of the colts' peers in the 1 1/2-mile Preakness.

If Kauai King wins the 1 1/2-mile second leg of the Triple Crown for 3-year-olds, Ford can about dictate terms when negotiations are reopened to syndicate the Maryland-bred son of Native Dancer, who was a surprise winner of the Kentucky Derby and Preakness last year.

Ford admitted Thursday as entries were made for the Preakness that he could complete a \$2 million deal with a group of Maryland and Virginia breeders to buy the horse.

Under the proposal, he would retain 30 of the 32 shares. But he has chosen to wait.

Kauai King might be worth more than \$2 million if he wins the Preakness, somebody suggested to Ford last Saturday.

"And he might well be worth less if he loses," the horse's owner replied.

Favored Kauai King was one of the last of the eight colts and the one gelding to be entered Thursday morning. There were no surprises but trainer Jim Padgett was confronted for a while with a minor problem.

Maryland racing rules forbid more than one owner to be listed on the program. Blue Skyer, a surprise third in the Kentucky Derby and earlier winner of the Louisiana Derby, has two — Marvin Padgett, Louisville distiller and father of the colt's trainer, and Hugh Grant of Bradford, Pa.

Newton Brower, chairman of the state racing commission, lost no time suspending the rule for the one race and Padgett left happy — happy he had solved his problem and happy his slow starting grey son of Promised Land had drawn the

outside post position. Padgett used to describe the drawing of No. 8.

Ford, filling in for trainer Henry Forrest, was equally elated when No. 3 came out for Kauai King.

"We're as pleased as possible," said Ford. Kauai King is a fast breaker and in the Kentucky Derby was in front all of the way. Reginald Webster's Amberold, a disappointing seventh in the Derby after winning the Wood at Aqueduct, was the first horse entered. He was followed by Mrs. Edward Laaker's Indulge; hero of last Saturday's Withers Mile and lone gelding in the field.

Then followed Robert Lehman's Rehabilitate; Stupendous from Mrs. H. C. Phipps' Whensley Stable; Blue Skyer; Mrs. Arthur Jacob's adagio; and the Alder Branch Farmer's Exceedingly; Kauai King, and Mrs. Ada L. Rice's Advocate.

Exceedingly is considered a doubtful starter if the track is off although he has shown mud form. The track was sloppy Thursday. The weather man says it'll be clear Saturday with

enough good weather between now and the 5:30 p.m.-EDT post time to put the racing strip in good condition.

Columbia Broadcasting Co. will televise the proceedings from 5:30 to 6 p.m. EDT.

With nine starters the gross value will be \$14,500 with \$120,000 going to the winner, \$30,000 to second, \$19,000 to third and \$7,500 to fourth.

The track handicapper tabbed Kauai King as the 7-5 choice.

Torres, Thornton Ready for Bout

NEW YORK (AP)—Light heavyweight champion Jose Torres finished his training Thursday for his title defense against Wayne Thornton at New York's Shea Stadium Saturday night.

The New Yorker, who boxed to rounds Wednesday, appeared two rounds each against Great Crawford and Cleon Daniels, Thornton, of Fresno, Calif., wound up his boxing drills Wednesday. His kiamasha Lake, N.Y., camp says it'll be clear Saturday with

Torres is a 7-5 favorite.

PIPER SALES AND SERVICE

Stocks

NEW YORK (AP)—The stock market continued to rise today, with the Dow Jones Industrial Average ending at 870.34, up 1.44 points from 868.90. The market was characterized by a steady climb in the first half of the session, followed by a slight pullback in the afternoon. The volume of trading was moderate, with approximately 1.2 billion shares changing hands.

The Dow Jones Industrial Average, which has been on a steady climb since early April, reached a new high today. The market was supported by a strong performance in the technology and healthcare sectors. Notable gains were seen in the shares of major corporations such as General Electric, which rose 1.25 points, and IBM, which gained 0.75 points. The market's upward momentum was also reflected in the performance of the S&P 500 index, which closed at 412.15, up 0.45 points.

The market's performance today was largely driven by a combination of factors, including a strong earnings report from a major technology company and a generally optimistic outlook for the economy. Analysts note that the market's recent run-up has been supported by a series of positive economic indicators, including a strong retail sales report and a steady decline in unemployment. However, some investors remain cautious, citing concerns about inflation and the potential for a market correction.

Despite the market's overall strength, there were some areas of weakness. The energy sector, in particular, saw a decline in its shares, with the Dow Jones Energy Index falling 0.25 points. This was attributed to a drop in oil prices and concerns about the impact of rising energy costs on the economy. Additionally, the market experienced a slight dip in the afternoon, as investors began to take profits after a strong start to the session.

Overall, the market's performance today was a testament to the resilience of the U.S. economy and the confidence of investors. As the market continues to move higher, investors will be watching for any signs of a slowdown or a change in the market's direction.

CACTUS PETE'S

Along Fences and Canals

View area ranchers in Cassia county are irrigating and preparing their land for planting beans. Some beans already are in. Many beans have had to be re-planted and several irrigations were necessary in bringing them up after the heavy frost some weeks ago.

Willford Wrigley and sons, View, have completed trailing their sheep to the summer range at Mead Creek in the Raft River area. Their cattle are on summer range at their Hollister Ranch.

Mr. and Mrs. George Croft, Emerson, have finished trucking their cattle from their home ranch in Emerson to their ranch in Elba this week.

Henry Ottley, Oakley, hired rider for the Elba Cattleman's Association has moved his camp to the Horsford Ranger Station west of Elba and has started checking and mending fences before the cattle are turned on the forest ranges next month.

Glenn Berryman has driven some of his cattle from his ranch in Malta to his ranch west of Elba in Clyde Valley, helping with the drive were Wallace Sears and Ellis Parish.

S. J. Piper, Richfield groceryman, returned to British Columbia, Canada, to spend a few weeks with his son, Carl Piper, who had spent the past year working in Richfield. Carl Piper has returned to Fellers Heights near Dawson Creek, British Columbia, where he homesteaded land several years ago and built a modern home. He recently leased an additional 1000 acres and his father assisted with planning crop planting.

Mr. and Mrs. Bob Clark and family, Adrain, Mo., have purchased the Earl Ellis ranch, east of King Hill. Mr. and Mrs. Ellis are making their home in Boise. Mrs. Clark is a sister of Bud Allen who lives on a ranch east of King Hill.

Employees of Mr. and Mrs. Charles Kast are working on the foundation of a new home at the former Floyd Barnes Ranch, east of King Hill, near the new road to the Klamath. A new home from Voice Builders, Jerome, will be set on the new foundation soon and Mr. and Mrs. Ralph Gluch and family will be moving into the new home. Gluch is employed by Mr. and Mrs. Kast.

Mr. and Mrs. James Blovin and family, Gooding, have moved to the 101 Ranch of her parents, Mr. and Mrs. Charles Kast, east of King Hill, where he will be employed. They will live in the trailer home east of the 101 Ranch.

Lee Presley and daughter, Sheila, Ketchum, assisted Mr. and Mrs. Charles Kast with their cattle drive from their 101 Ranch in King Hill, to their Fir Grove Ranch, near Fairfield, over the weekend. Assisting with the drive were Ralph Gluch, Asahel Gridley and Ed Silva. The cattle were rested overnight at a pasture at Clover Creek and moved onto the ranch Monday. Mrs. Kast and her mother, Mrs. Ed Silva, served dinners along the way. Sheila Presley, granddaughter of Mr. and Mrs. Kast, was one of the riders. It was the first time she had ridden in a cattle drive.

Mr. and Mrs. Vern Noble and family have moved from the Bob Graham Ranch, south of King Hill, to the ranch of Mr. and Mrs. John Baptie, where Noble will be employed.

Mr. and Mrs. Walter Stewart, Tuttle, have moved their dairy calves to summer pasture in Hagerman.

Tuttle farmers who plan to plant red beans are now watering their ground and working it up. Planting will begin shortly after May 20. The corn is coming up, with good stands in both the sweet and field varieties.

Shearing sheep was under way this week for one hand on the desert belonging to Dale Conrass and Luis Conrass, both Carey, and Frank Somsen, Halley. They have three bands of sheep in the Fish Creek area and a band in the hills north of Carey.

Harold Ingram, a North Side homesteader, burned 87 acres of sagebrush and dry grass on his property 10 miles north of Paul. It was a controlled fire and set with permission of the BLM. The blaze, which was still active after dark, could be seen as far away as Burley. Some Burley people called the West End Fire department at Paul and reported the fire was four miles north of Burley, and persons in Heyburn estimated the fire to be located in the Paul village. The fire was managed across the south portion of the field and directed to the north end. The appearance of the long golden blaze line in the desert hill resembled a familiar range fire from a distance. Mr. and Mrs. Ingram acquired the land last winter during the "small tract sale" of the Bureau of Reclamation. They plan on planting potatoes on this property. Besides this they own and operate 361 acres with the help of their three sons.

C. J. Ross, Twin Falls, and Jay J. Strobe, Carey, are among 188 breeders over the nation named to membership in the American Hereford Association during the month of April.

Post Office to Distribute Livestock Survey Cards

BOISE — The Post Office Department will distribute nearly 20,000 livestock survey cards next week in assisting the office of the Idaho statistician of the Crop Reporting Service in Boise.

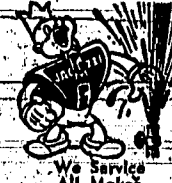

About half of these cards will have been pre-filled in the state statistician's office and the other half will be distributed at random to other farmers or ranchers throughout the state.

Also, within the next few days about 9,000 acreage cards will be mailed directly to crop reporters from the statistician's office.

These cards, filled out and returned by farmers and ranchers, will help Clarence E. White, state statistician, forecast livestock and poultry production this year as well as estimate the acreages planted and probable acreages to be harvested of individual crops in 1966.

White lauded the U.S. Post Office and the rural and state route mail carriers for their assistance in making the livestock survey and pointed out they are making special effort to avoid duplication in the distribution of the livestock cards.

"With this help, we are able to get an accurate picture of Blackfoot."

Farm AND Ranch

Magic Valley's Week-End Farm Paper

SECTION

May 20-21, 1966 Twin Falls Times-News 19

SHAKING HANDS during training session for fieldmen of Federal Crop Insurance are from left, D. H. Bertoch, district director for Federal Crop Insurance, E. W. Neas, director of claims division for U.S., from Washington, D.C., and C. F. Lawson, state director of Washington, Oregon, Idaho and Utah. These three men explained the crop programs of Federal Crop Insurance to the fieldmen who met at the Idaho Power Co. auditorium. (Times-News photo.)

Federal Crop Insurance Gives Training Sessions

Four training sessions on loss adjustment given to fieldmen have just ended, sponsored by the Federal Crop Insurance. The sessions were given to train fieldmen on loss adjustment at the Idaho Power Auditorium on four different days during the past week. Some 35 representatives from four states were present for the sessions. Federal Crop Insurance offers all-risk insurance protection on wheat, barley, sugar beets, potatoes, beans, peas and apples in Washington. Practically all major counties of Idaho, Oregon and Washington and four counties in Utah are offered all-risk insurance. Utah is slated for expansion soon.

Bureau of Land Management Asks for Bids on Projects

BURLEY — Bids have been asked on installation of approximately 20,700 feet of plastic pipe and appurtenances for use by the Bureau of Land Management in Twin Falls County, about 15 miles southwest of Twin Falls, according to Jack Wilson, district manager for Bureau of Land Management in Burley.

May 24 at 2 p.m. has been set for opening of the bids, at the Portland-Superior Center.

The second project advertised for Idaho, also located in Twin Falls County, calls for supply and installation of materials to complete the Berger pumping system. Bids for this work will be opened at the same address in Portland at 1 p.m. May 23.

Bids are invited by the Bureau of Land Management, Department of the Interior, for three projects in Nevada and one in Idaho.

One call for installation of 24 catiguards on government owned land in White Pine County, Nev. Bids will be opened at 2 p.m. PDT May 23 in the bureau's service center, room 210, 710 N. E. Holladay St., Portland, Ore.

Construction of approximately 12 miles of barbed wire fence in Humboldt County, Nev., is asked in bids which will be opened at the same location in Portland at 1 p.m. May 28.

Also on bid is the building of more than three miles of barbed wire fence, drainage crossings and gates, also in Humboldt County, with bids scheduled to be opened at 2 p.m. the same day at the Portland Service Center.

Contractors are expected to examine the project sites and guided inspection tours conducted by Bureau of Land Management representatives will be arranged for interested bidders.

"REGISTERED IN THE STATE OF IDAHO"

On the average, about 95 cents on a dollar paid in is paid back to the farmer on crop loss. The balance is put in reserve for the next year. Last year, in Idaho alone, \$1,000,000 was paid back to Idaho farmers on beans and potatoes loss.

Thirty-six states in the United States have some crop insurance. Twenty-six counties in Idaho have some 77 crop programs in effect. Four counties in Utah have 11 crop programs in effect.

In Oregon, 12 counties have 30 crop programs in effect. And in Washington, 48 crop programs are in effect with 10 counties covered. Explaining the crop programs to the fieldmen were C. F. Lawson, state director of Washington, Oregon, Idaho and Utah; E. W. Neas, director of claims division for U. S., Washington, D.C., and D. H. Bertoch, district director for Federal Crop Insurance.

CONTROL ALFALFA WEEVIL

Get top performance at low cost...and no residue problems

Malathion provides the most effective control of alfalfa weevil—with none of the problems encountered with other commonly used insecticides.

The preferred practice for weevil control now recommended by authorities is to spray the larvae with malathion. By spraying when the larval counts are high, good control of weevil can be obtained with a single application.

When you use malathion for alfalfa weevil larvae in accordance with label directions, you enjoy exceptional freedom from insecticide hazards. There is no danger from drift...no worry about residues on hay, milk, milk products or meat.

NO WAITING PERIOD. A recent USDA registration has raised the tolerance level of malathion to 135 ppm on hay and grass crops and allows harvesting or grazing on the day of application.

This important advantage along with malathion's low toxicity to workers—and small cost per acre—has made malathion the insecticide of choice for alfalfa weevil programs.

Also controls aphids and other forage pests including lygus, grasshoppers, leafhoppers and armyworms. Consult local agricultural authorities for information on timing of application.

Before using any pesticide, stop and read the label.

Entomologist Speaks at Area Meet

Walter E. Peay, USDA entomologist, was the featured speaker at the May meeting of the Magic Valley chapter of the Research Society of America held recently.

Peay described the research program under way at Twin Falls on the control of leaf hoppers. These insects cause the plant disease curly top in sugar beets and beans in this area by carrying the virus that infects the plant.

They live on host plants such as mustards in the desert areas in early spring and then migrate to the cultivated areas. The main summer host plant in this area is Russian thistle. Use of insecticides on the crops is not effective because the plants become infected before the insects die.

Research is under way to find parasites that feed on the leaf hopper eggs. Elimination of large areas of Russian thistle also is a control measure. Plant breeders develop new varieties that are resistant to curly top.

The Research Society of America is a national organization dedicated to recognizing individual accomplishments in all fields of research.

Dr. Ernest Hartung, president of the University of Idaho, is scheduled to speak at the June meeting of the group.

NEW DIRECTOR of the University of Idaho's museum is G. Ellis Bureau. Bureau has wide experience in handling museums and has been on many expeditions to discover remains of history. The museum was opened in 1945 and up until Bureau was appointed the faculty museum committee had been supervising activities. (Times-News photo)

Condition of April Range Feed Is Down

BOISE — Condition of range feed in Idaho declined seven points during April, the largest drop from April to May since 1939, reports the USDA Crop Reporting Service for Idaho.

The reported condition of 73 is six points below the 1960-64 average for this date and is the lowest May condition since 1955. Range feed was frozen back heavily late in April and new growth has been retarded by cool weather and short moisture supplies.

Prospects for summer range feed are only fair due to the dry condition. Although moisture is badly needed in nearly all areas, many spring ranges are now beyond recovery for this year.

Cattle and calf conditions declined two points during April. However, the current condition of 45 remains one point above

Potato Leaf Roll Bulletin On Hand at County Agent's

The best way to avoid leaf roll is to be sure your potato seed is certified, Donald Youtz, Twin Falls County extension agent, reminded growers this week.

Certified seed is clean, he emphasized. Because it does not have leaf roll, you will not have the crop loss that occurs in infected fields.

The advice is based on a bulletin just published by the University of Idaho extension service and which is available at the county agent's office. The authors are Henry Fenwick, plant pathologist, and Richard Ohms, potato specialist.

Leaf roll, they point out, is the most serious virus disease of potatoes in Idaho. Reductions in commercial yields have been as high as 60 per cent in some severe cases. Seed potatoes that show leaf roll are not eligible for certification.

Non-certified or "year-out" seed potatoes usually contain

Retail Organizations Requested to Give Cooperation in Farm Program

CHICAGO — Retail organizations were requested this week to give their cooperation in a "farmer - retailer" program to stimulate the sales of processed apple products with special emphasis on apple sauce, by Charles B. Shuman, president of the American Farm Bureau Federation and the American Agricultural Marketing Association.

In his letter to the retail organizations, Shuman said, "Apple sauce sales have experienced phenomenal growth during the past ten years. This growth can be attributed in part to improved flavor and texture of apple sauce, new techniques in quality standardization, development of new consumer-oriented containers and expanded promotion and advertising by industry groups and individual processors."

"As U. S. apple production increases, apple growers depend to a large extent upon an expanding market for processed apple products to move apples into consumption."

He commented on the market for processed apples during the past two seasons and said, "During the past two seasons, apples have been in good supply and apple processors have processed record crops of apple sauce. The 1964-65 season apple sauce pack to April 1, 1965, was 24,034,425 cases."

"The pack for the 1963-64 season to April 1 was 24,753,000 cases," he said.

Many infected tubers, the bulletin says. When they are planted they develop plants with leaf roll. The condition is shown in the field by the upward curling or rolling of leaflets.

Only the lower leaves are affected at first, but finally all the leaves curl and take on a yellow color. Infected plants are stunted. Their tubers are smaller and fewer than those of healthy plants.

Growers of certified seed are advised to control the green peach aphid in the vicinity. The aphid is the major means of spread from a diseased potato plant to a healthy specimen.

"The aphid can be eliminated by removing apricot and peach trees in the immediate area or treating them with a dormant spray in the spring. Early roguing of potato fields is also advocated. Saving seed stocks from the center of fields for next year's planting is another advisable practice."

Free copies of the bulletin "Potato Leaf Roll" are on hand in the county agent's office.

4-H Project

Record books for a new 4-H Club project entitled "Adventure With Crops" has been received by the county agent's office.

Glen Genn, in charge of 4-H Clubs in Twin Falls County and who is also an agronomist, says the project requirements are excellent. They teach 4-H members many details about crop seeds, water, light and fertility requirements.

Parent-Son Banquet Held By Declo FFA

DECLO — Annual parent-son banquet was held by the Declo Future Farmers of America Chapter last week at the Declo LDS Cultural Hall.

Master of ceremonies for the event was Kendall Dayley, with the invocation given by Carl Osterhout. Opening ceremonies were conducted by FFA officers.

Guest speaker was Ted Koley, Burley businessman, who stressed the need of continuing one's education in college in order to be qualified for the jobs of tomorrow. He pointed out the importance of getting along with people in order to succeed in life.

New officers elected are Duane Bailey, president; Albert Brown, vice president; Walter Kase, secretary; Carl Schenk, treasurer; Carl Schenk, secretary; and Marly Kelen, reporter.

Greenhand pins were awarded to first year members and chapter pins presented to 2nd, 3rd, and 4th year members by Duane Bailey.

Jack Rosa was presented a trophy for winning the tractor driving contest. A plaque for placing first in the economy fund was awarded to Jerry Penrod by Albert Brown.

A second place banner won at the Eastern Idaho State Fair was presented to Eddie Hatch, Max Fuqua and Stanley Schliewe. Winners of the first place trophy at the district livestock contest were Schliewe, Torrell Kidd and Dell Mitchell.

First place trophy, which was won at the District Dairy Judging Contest, was presented to Schliewe, Fuqua and Carl Carter.

Bert Gardner, FFA adviser, honored Max Fuqua for having the best bean project in the Declo Chapter. Gaylen Engstrom was given recognition for having the best beet project and receiving a check in the county contest sponsored by the Cassia County Beet Growers Association. Hils Zathier, Gus Engstrom, accepted the honor for Gaylen, who is attending the University of Idaho.

Honorary memberships were awarded to Kendall Dayley, Dennis Curtis and James (Bud) Hill.

A piano solo was presented by Pamela Fuqua.

Canada Set for Cheddar Market

OTTAWA — With no hesitancy about counting its chicks before they're hatched, the Canadian government has announced that if the dominion obtains maximum sales under the proposed higher U. S. import quota on cheddar cheese in 1966-67, as much as 27 million pounds of milk will be needed for an additional export of 2.5 million pounds of cheese.

The U. S. import quota was raised by 220,000 pounds for the rest of fiscal 1965-66, of which Canada will provide 200,000 pounds. But the U. S. Tariff Commission has not yet reported on the advisability of raising the 1966-67 quota by 8.5 million pounds, plus an additional 12 million pounds of aged cheddar.

The Canadian announcement terms the nation "the world's premier producer of specialty aged cheddar." Its dairy interests and politicians have long pressed for increases in the U. S. import quota, particularly for aged cheddar on grounds that it is a specialty product.

Need a New Building?

BUY IT
with a PCA Loan!

Use a PCA loan to buy your next building. Or, if you already have a PCA line of credit, add the cost to your present loan. Either way, you get these advantages:

Low Interest Rates...and interest to pay only on the amount you use, and the time you actually use it.

Repayment Schedule...spread the cost of equipment over several years, with payments scheduled when you sell crops or livestock.

Ownership...your PCA loan automatically makes you a member and part-owner of your local association.

Production Credit Associations specialize in credit for all operating and production needs. Stop in, get all the details.

SITTING BEHIND WHEEL of fire truck is Frankie Castillo, one of the volunteer firemen of the Twin Falls County Mutual Fire Insurance fire station at the labor camp, located south of

Labor Camp Has Volunteer Firemen Who Are Efficient

Fire trucks owned by Twin Falls County Mutual Fire Insurance Co. are spread throughout the Magic Valley area. One of the most efficient ones is the fire truck managed by the personnel at the labor camp, located south of Twin Falls.

All the firemen are volunteer firemen and the maintenance men in the camp are the ones who go out on the fire.

There are three fire phones in the camp and when someone phones in a fire, a siren located in the camp goes on automatically. Then one of the firemen gets to the phone and gets the directions to the fire from the caller.

Three men usually are sent out on a fire at a time and they are automatically insured by Twin Falls County Mutual Fire Insurance Co., and although the fire usually destroys the object that has caught fire, because of the distance, the firemen do a very good job of containing the fire and not letting it spread.

The firemen get paid \$4 for the first hour on the fire and then get two dollars for every hour after that. The volunteer firemen usually fight about 25 to 30 fires in an average year.

Maintenance and oil costs are split down the middle by the labor camp and the Twin Falls County Mutual Fire Insurance Co., and the labor camp usually spends about \$300 to \$400 a year for the fire engine. Last year, though, the labor camp broke about even.

The labor camp is not the only fire station owned by the Twin Falls County Mutual Fire Insurance Co. It owns a fire truck in Bluff, Kimberly and Piler, and a small one at Murtough. The large fire trucks have a 1,600-gallon capacity for winter fires and can pump out of a ditch when fires occur during the summer.

Potato Agent Gives Tips On Chemical Weed Control

Chemicals do not provide the complete answer for controlling weeds, but they are a tool which can be used by growers.

After the weed seeds have germinated use a plow, cultivator, disc or spray with 2,4-D to prevent weeds from producing seed. Some weeds such as pigweed may produce seed when only two or three inches high.

The use of any chemical to control weeds in fields planted to potatoes offers some hazard. Always read the label first and follow directions. Immediately before application of a pre-emergence chemical smooth off the hills with a plank.

It is possible to corrugate, plank and spray in one application. The potato sprouts should mix it with the surface soil. Irrigate immediately to germinate as many weed seeds as possible.

After the weed seeds have germinated use a plow, cultivator, disc or spray with 2,4-D to prevent weeds from producing seed. Some weeds such as pigweed may produce seed when only two or three inches high.

Farm Employed Is Down During April 17-23

BOISE — An estimated 60,000 persons were employed on Idaho farms during the week of April 17-23, reports the USDA crop reporting service for Idaho.

This is 2,000 fewer, or three per cent below the comparable period of last year, and 8,000 fewer, or 12 per cent below the 1960-64 average. Family workers totaled 44,000 — 2,000 fewer than last year.

Hired workers on Idaho farms were set at 16,000, the same as a year ago but 1,000 less than the five-year average. Cold weather with snow in southern and eastern areas early in the week slowed field work. Major activities during the week were preparing seed beds, spring seeding, fertilizing and smudging of fruit orchards.

At least one inch long before applying wood killer. This will be at least two or three days before emergence.

On heavy soils use two pounds actual 2,4-D per acre. On sandy soils use not more than one half pound if at all. Use a low volatile ester or an oil soluble amine. Apply in 20-30 gallons of water per acre.

Low volatile ester and oil soluble amine formulations are not water soluble and are less likely to be carried by water into the root zone of the potato than is the water soluble amine formulation of 2,4-D.

Apply Linuron at the rate of two pounds of the 50 per cent commercial product per acre on medium textured soils and three pounds per acre on heavy soils. Follow the practice of planking just prior to the application of Linuron.

Linuron has a low solubility, on which its selectivity is based. Therefore, at high rates, or in light sandy soil, it can cause potato injury. At least six inches of soil should be over the seed piece.

After you buy a pesticide, read the label again before use. Study it carefully. Then follow all label directions and precautions for storing, mixing and applying the pesticide, and for disposing of unused pesticide or the empty container.

Labels for pesticides must be critically reviewed by scientists of the U. S. Department of Agriculture before the products may be shipped in interstate commerce.

These labels are accepted only after the manufacturers or formulators prove the pesticides are useful, effective and safe, when applied as directed on the label. The manufacturers' labels provide the best available guides for proper use.

But you also have a responsibility to protect yourself and your family, protect your neighbors and their property and to protect pets and wildlife. Use pesticides safely, read the label.

Convention to Discuss Marketing, Farm Money and Registered Cattle

BRATTLEBORO, Vt. — Marketing federation, Lake has represented dairy farmers and the U. S. Navy, he has been in popularity of registered cattle for marketing cooperatives. The market situation for milk and dairy products will be presented by Glenn Fink, president of National Milk Producers Federation and dairy farmer from Michigan.

Farming's relationship to modern farm value is the subject for William F. May, vice president of the Federal Land Bank of Wichita. Eugene C. Meyer, a syndicate editor of "Hoard's Dairyman" magazine, will share his observations of the registered cattle industry with the audience.

Also appearing on the speaker's platform will be Dr. Ralph Hodgson of USDA. He will describe the chain of responsibility for DHIA production testing, an important phase of breed improvement for Holstein dairy.

Dr. Hodgson is livestock division director of Agricultural Research Service. Additional remarks concerning DHIA testing also will be given by Craig Seave, president of the recently organized national DHIA.

Holstein delegates will also hear reports from Association officers on new developments in the dairy cattle export market as seen by Fred M. Lege of Oregon Agricultural Service, USDA, and a special welcome from Kansas Dairy Princess Janice Kay Klusener.

More than 1,000 persons are expected to register for the four-day program which opens May 30 with the Kansas black and white show. Activities conclude Thursday with the national convention sale of registered Holsteins.

In the address on milk marketing, Lake will be drawing upon his leadership role as spokesman for dairy farmers in Michigan and the United States over the past 10 years. As president of National Milk Producers Federation, he has been in the forefront of dairy marketing efforts.

Except for a tour of duty with the U. S. Navy, he has been in popularity of registered cattle for marketing cooperatives. The market situation for milk and dairy products will be presented by Glenn Fink, president of National Milk Producers Federation and dairy farmer from Michigan.

Idaho Potato Processing Well Above Previous Years

Potato processing in Idaho (plus Idaho potatoes processed in Malheur County, Ore.) from July through March accounted for 27,337,000 hundredweight of raw potatoes, according to reports compiled from processors over the state.

This level is well above the amount processed for the entire season in any previous year. Of the total processed so far this season, 26,642,000 hundredweight were used in the manufacture of food products and 1,185,000 hundredweight for starch, flour and alcohol.

Of the 27,337,000 hundredweight processed, about 4,841,000 hundredweight came from the 10 southwest counties of Idaho, 20,338,000 from the other counties of Idaho and 1,858,000 were shipped into Idaho from other states.

The total quantity of potatoes used in processing during the first nine months of this marketing season was 42 per cent more than the amount used during the same period last year — usage for food products was up 40 per cent while starch, flour and alcohol was more than double the amount used a year earlier.

Control alfalfa insects without residue problems in milk or meat. Just spray reliable Alfa-tox.

(a combination of Diazinon and methoxychlor)

You can be doubly sure of effective insect control with Alfa-tox. That's because Alfa-tox is a combination of two proved insecticides... Diazinon® and methoxychlor.

Spraying with Alfa-tox assures you of effective control of alfalfa weevil, including strains which have become resistant to some of the other insecticides. And Alfa-tox also gives you outstanding control of aphids, spittlebugs and just about every other insect known to attack alfalfa.

Spray Alfa-tox before your first cutting. Check alfalfa bud tips frequently and treat by the time 30-50 per cent of the bud tips show signs of weevil larvae feeding. This provides effective control of larvae which have already hatched, as well as larvae which hatch following application.

Control with Alfa-tox lasts for two to three weeks, which is usually ample time to assure protection until you harvest your first cutting. If a repeat application is necessary, it may be made up to seven days before cutting for hay.

With Alfa-tox, you can be absolutely sure of no insecticide residue problems in milk or meat. Just wait seven days after spraying before you mow your alfalfa for hay or graze your livestock.

See your nearby supplier for Alfa-tox. It's the combination of Diazinon and methoxychlor you can really depend on.

COMPLETED CATTLE WATERING trough is lifted from mold by the two owners of the Canvas and Plastic Co. Ken Tucker and Jack Powhus and company workmen have just completed an order for the tanks which will be used by the

Sawtooth National Forest in the Oakley area. The tanks actually become stronger as they age and weigh about 55 pounds when empty. They hold 250 gallons of water. (Times-News photo)

WATER IS USED to float a newly formed cattle watering trough manufactured by the Canvas and Plastic Co., Twin Falls. Connecting the hose is Kenneth Tucker, co-owner of the firm. Tank construction is by a blend of glass mat, glass cloth and polyester resin. (Times-News photo)

Ogden Flour Mill to Have July Opening

OGDEN—The July opening of the Ogden Flour mill, previously owned by General Mills, will ease the burden on Idaho, Utah and Montana flour mills, according to Earl F. Cross, president of the Colorado Milling and Elevator Co.

The Colorado Milling and Elevator Co. purchased the milling properties earlier this month and the purchase will be effective June 1. The mill has been closed for nearly a year and Cross said it will open at the earliest possible date in July.

Cross said the Ogden plant has a capacity of 1,000 hundredweight of flour per day and grain storage capacity of 1,200 bushels.

Cross said, "In order to provide better service for the fast growing Western population, an increase in our company's flour milling capacity is necessary."

Conservation Camp Slated For Alpine

ALPINE—The woody hills near Palisades Reservoir will be an outdoor classroom for high school boys attending the annual University of Idaho conservation camp at Alpine, June 8 to 11.

Tom J. Chester, district supervisor for the University of Idaho extension service, Pocatello, and Ralph Garrison, Boise, extension conservationist and camp program director, said recently about 80 boys from southern Idaho are expected. This is the seventh year of the camp.

The camp managers said applications can still be made to

Watering Troughs for Forest Use Made Here

Cattle watering troughs manufactured by the Canvas and Plastic Co., Twin Falls, will be used in the Oakley area of the Sawtooth National Forest. The troughs, weighing only 55 pounds empty, are 10 feet long, 18 inches deep and are one-half of a three-foot circle. They are made with glass mat, glass cloth which is pre-glassed with polyester resin. Each tank is practically hand made and is built up to the desired strength.

Owners of the company, Jack Powhus and Kenneth Tucker, said that each tank is aged approximately two weeks in the factory on Addison Avenue

county agricultural agents. Boys attending the camp will be instructed by University of Idaho staff members and representatives of other agencies in conservation of soil, water, forest, range and wildlife. They will live in the 4-H camp and take field trips to nearby areas. Awards for outstanding accomplishment will be presented on the last day of the course.

Field Day Scheduled at Arco Ranch

ARCO—The 1955 Idaho Junior Hereford Association Field Day will be held on June 14 at the Rothwell Hereford Ranch near Arco, according to an announcement made by officials of the junior association.

The host firm is owned by Richard and Lewis Rothwell. Field day visitors will see one of the top Hereford establishments in Idaho where about 100 cows of Advance Domino, Domino Heir, Silver and Red Prince bloodlines are run.

Field day activities will start at 9 a.m. with the registration of judging teams and individuals for the Hereford judging contest. Numerous trophies and plaques will be awarded to judging contest winners. County agents and vocational agriculture teachers may bring as many teams of four and individual judges as they wish.

The presentation of a show steer prospect to the high member of the Idaho Junior Hereford Association in the judging contest will be a special incentive for boys and girls who are members of the junior group to participate in the contest. This calf will be given by the host ranch.

Well-known Hereford breeders from Idaho and surrounding states have been contacted to appear on the interesting and educational field day program. Officials of the Idaho Junior Hereford Association who will be assisting with the field day program are Linda Shaw, Goldwell, president; Miss Billie Robb, Idaho Falls, first vice president; William Zollinger, Malta, second vice president; Margaret Pattee, Tendency, secretary; David Latham, Driggs, treasurer; and Ronald MURDOCK, front Idaho and surrounding states have been contacted to appear on the interesting and educational field day program.

Castleford Man Elevates Stalls for Easier Milking

CASTLEFORD—"Milking cows in elevated stalls is a lot easier, and you can stand up to do the job," related Marvin Cox, a bulk tank producer east of Castleford, with his parents, Mr. and Mrs. Dallas Cox. The

Coxes have sold milk to Pot Milk Co. at Buhl for about 20 years.

The Coxes had added a milk room to their old milking barn, and installed a bulk milk tank and a pipeline milker. When Cox's back began to bother him, they decided to build an elevated stall milking parlor which was completed in the fall of 1955.

By adding more length to their old barn, the Coxes were able to build the three-on-a-side, walk-through parlor.

Cox uses three milking units, and milks around 30 cows per hour. He lets three cows in one side of a rotation of feed crops for his Holsteins. When the McCalls' only son, Marvin, went to college they faced a labor shortage.

McCall knew he couldn't continue to raise row crops and milk cows. He felt the price for milk was just as good and, in some cases better than the income received from row crops. He also knew he could irrigate pasture and hay much easier than his row crops.

Following these thoughts with McCall, he increased his herd to 40 cows. His call "crop" pays for all feed needs above what is produced on his 80 acres. McCall believes in feeding his dairy stock often and regularly, and he recommends good quality alfalfa hay as the main feed.

He milks at 4 a.m. and 4 p.m. each day. This gives him time for other farm work and leaves evenings free for family activities. Mr. and Mrs. McCall are enthusiastic about high school athletic events and they seldom miss a game, whether it's played at home or out of town.

Blackfoot, reporter. Directors are Ray Barker, Elba; James N. Meridian, and Reed Sanders, Hamer. Advisors are Kenneth Naugle, Nampa; Tom Shaw, Goldwell; Dale Breckenridge, Teton, and Donny Curtis, Burley.

Massey-Ferguson MEANS TOP DIESEL ECONOMY

This Massey-Ferguson Direct Injection Diesel Engine sets an all-time fuel economy record (18.15 H.P./Hour per gallon) in the 1955 Official Tests.

It powers the M-F 135 and 150... Bigger Massey-Ferguson Direct Injection Diesels power the M-F 165, 170 and 180.

Burley Man's Stalls Are Paying Off

BURLEY—"Cows are cleaner since they're in individual stalls in my new loafing barn," said Eldon Huber, bulk tank producer southeast of Burley. "It takes less time to milk when cows are clean when they come into the milking parlor," he continued.

Huber's barn—of galvanized iron and pressure-treated, cross-aisled poles—is 24 feet wide, 60 feet long, with sliding doors at each end. Fifteen four-foot stalls are on each side.

Plastic skylights give ample light. An eight foot concrete alleyway with a curb on each side is down center. Huber's is easier now. "I use my tractor with a blade on back," Huber stated.

He covers stall floors with sawdust and then straw. "I use only a fourth as much bedding as I did in the open shed. Cows have fewer under injuries, now."

Huber and his father, George Huber, built the barn. Materials cost \$1,330 (\$44.33 investment per cow for shelter). Eldon expects the barn to soon pay for itself through savings in labor bedding, fewer cow injuries and increased milk production.

The Coxes have not lost their goal of a herd average of 500 pounds of fat. In 1954, the cows averaged 14,306 pounds of fat. During 1955, their 41 cows had an average of 14,330 pounds of milk and 478 pounds of fat.

Between three per cent and 3.5 per cent that it does above 3.5 per cent. Of course, it wouldn't make Cox angry if his test improved at the same time. However, he knows that pounds of milk per cow is the most important factor in a profitable dairy herd.

What's new about Anhydrous Ammonia?

Service, that's what's new!

Soil Fertility Specialists at United States Steel emphasize "Extra Measure Service" which assures you the right amount of Anhydrous Ammonia, applied in the right place, at the right time.

Count on USS Soil Fertility Specialists for the most efficient applicators. Meters that are tested to within .001% accuracy to enable uniform application.

State certified scales on monorail trucks that weigh tanks in the field so growers can see how much Anhydrous Ammonia is applied. Tissue testing of your crops to detect nutrient deficiency and when to apply Anhydrous Ammonia.

For side-dressing of crops with Anhydrous Ammonia, call Soil Fertility Specialists at your United States Steel Soil Fertility Center today.

RUNOFF FROM ABOVE comes over the Salmon Canyon rim from the water project of Mr. and Mrs. Vernon Herzinger, Buhl, to flow into the Salmon Falls Creek to be pumped back to the reservoir on top by this pump which has 350 horsepower and pumps about 250 inches of water a day onto the top of the land. The water project cost about \$40,000. (Times-News photo)

PUMPING WATER out of the reservoir on top of the land owned by Mr. and Mrs. Vernon Herzinger, Buhl, is this pump which has 100 horsepower and pumps about 200 inches of water a day to the top of a hill on the land. The water comes from another pump in Salmon Falls Creek Canyon into the reservoir. The water project includes 627 acres of land owned by Mr. and Mrs. Herzinger. (Times-News photo)

Dairy Output

WASHINGTON, D. C. — Reduction in milk production under year-ago figures continued in April with a four per cent drop.

Manufactured dairy products on a milk equivalent basis fell 14 per cent in the first quarter compared to 1965. Creamery butter production of 296 million pounds was 26 per cent below the first three months a year earlier and the April output also was about one-fourth less.

First quarter American cheese output was four per cent smaller but by March was about the same as a year earlier. A 30 per cent decline in nonfat dry milk output the first quarter was associated with the sharply reduced butter output.

REPORT GIVEN

RACINE, Wis. — Net sales continued strong for J. I. Case Co. in the second quarter with \$94,594,000 reported. This is 22 per cent higher than the comparable period of 1965 when sales amounted to \$77,292,000. For the full six months sales totalled \$157,617,000 or 26 per cent over the same period last year.

GOING OVER plans of the water project on the land they now northwest of Buhl are Mr. and Mrs. Vernon Herzinger, Buhl. The land includes 627 acres. The project was engineered and built by Silgar's Northwest Crane, Rigging and Transport and total cost on the land has been about \$40,000. (Times-News photo)

Area Couple Spends Time on Water Project Near Buhl

BUHL — Mr. and Mrs. Vernon Herzinger, 408 Eleventh Ave. N., Buhl, are working on a water project northwest of Buhl which covers over 600 acres of land.

Silgar's Northwest Crane, Rigging and Transport engineered and built the project on the land owned by Mr. and Mrs. Herzinger over a year ago. Silgar is a partnership by Doyle Silgar and his three sons, William

Compliance Sought for Blaine ASC

HAILEY — Carl Schoessler, chairman, Blaine County Agricultural Stabilization and Conservation Committee, is requesting all producers signed up in the 1966 wheat and feed grain programs who have all their crops seeded to comply in the voluntary compliance program being tried for the first time in Blaine County.

Schoessler said to be eligible for program benefits diversion of wheat, barley and corn acreages must be obtained by the ASCS office here by July 25.

He said the voluntary compliance program will reduce costs for measuring the crops signed up.

Reserve Officers Say Food Is Number One Problem

Food is the number one problem facing the world today and with reclaimable land rapidly disappearing it is expected to get much worse.

This was the gist of information which three local Air Force Reserve officers told members of the Twin Falls Kiwanis club as they reported on a national security seminar they attended at Willamette University, Salem, Ore.

The officers are Lt. Col. Arthur Anderson, Maj. Gene Hull and Maj. Elmer Haggerty.

The speakers, who also discussed military problems in the world, said that in the matter of food the problem of distribution was a difficult one to solve. In the less developed areas it is sometimes impossible to get the food to the point where it will do some good.

They pointed out that in 1960, for instance, the world population totaled 3.6 billion people, while today the total is 3.2 billion and by the year 2,000 it will be 6.4 billion.

In the world there is a three-billion-acre area available for production of food and non-food items in the field of agriculture. The United States and Canada are today the breadbasket of the world and in these two areas

FARM Auction CALENDAR

Idaho Hall of Fame Elects Jerome Man

JEROME — At the Idaho Dairyman's convention in Moscow, Frank Houston, Jerome, received a plaque which reads, "Frank Houston elected to the Idaho Dairy Hall of Fame, 1965, by the Idaho Purebred Dairy Cattle Association."

Houston has been a dairyman and Holstein breeder since 1914 when he left Kansas State College and bought purebred cattle. In 1922, he moved to Jerome, where he produced high-quality foundation stock ever since.

"Helpers from my farm are high quality, and when I can help a club boy get started raising purebred cattle, I'm very pleased," said Houston.

The contract was approved by the board of directors of Tom Huston, meeting in Columbus, Ga., and the executive committee of General Mills' board of directors, meeting in Minneapolis. By its terms the contract is subject to the approval of shareholders of both companies at special meetings to be announced.

Agricultural Employment Shows Mild Gain in April

BOISE—Agricultural employment for March showed a mild gain over February. Interim poor weather during the month, coupled with an already high February employment level, held down the March increase.

The increase from February was 1,000 jobs. As expected, the expansion occurred primarily within the wage-and-salaried category as farmers and ranchers hired additional workers for progressing spring work.

Water was turned into the main canal system during the last week of March. This would mean ditch bank burning and clean-up tasks and farmers turned their attention to soil preparation work.

During April poor weather hampered outdoor activities as rain and snow accompanied freezing temperatures. Most early sowing was too late in nature to be affected, although some crop damage was reported in scattered areas.

Possibly hardest hit by the frost were the unheated orchards in the western part of the country where some operators report of severe fruit crop damage.

Demands on Agriculture To Be Tremendously High

MOSCOW—The demands on world agriculture in the next one-quarter century are going to be tremendously high, Dr. Veal R. Smith, dean of the Utah State University college of agriculture, predicted here recently.

Dr. Smith was a guest speaker at the University of Idaho agricultural science day, with the theme of "The Twentieth Century Revolution."

He noted that the world hunger problem is more severe now than ever before in spite of the fact that the United States has given about 140 million tons of food to the world since the war.

The U.S. Food for Freedom program is now recognizing that though food is being supplied to stave off starvation, participating countries must develop the ability and take the responsibility of feeding themselves.

The U.S. Food for Freedom program is now recognizing that though food is being supplied to stave off starvation, participating countries must develop the ability and take the responsibility of feeding themselves.

Agricultural Conference To Be Held in Washington

WASHINGTON, D.C.—Secretary of Agriculture Orville L. Freeman and Ryujii Takeuchi, Japan's ambassador, will address next month's Washington agricultural conference on trade with Japan.

The conference, which will explore key factors in building agricultural trade with Japan, will be held June 23 at the Statler Hilton here under the sponsorship of the United States-Japan Trade Council and a number of farm and community organizations.

Other speakers at the day-long conference will include Sen. Frank Carlson, R-Kan., and a member of the Senate Foreign Relations Committee, and Gov. Otto Kerner, Ill.

Other highlights of the program will include appraisals of trade improvement prospects from the point of view of both buyers and sellers. After presentations of their views, panel discussions, representatives of Japanese buying groups will exchange trade viewpoints with their U.S. counterparts.

Moderating these sessions will be Eberhard H. Jacobson, assistant secretary of agriculture for international affairs, and Raymond A. Jones, administrator of the Foreign Agricultural Service.

Invitations to take part in the conference are being extended to leading farmers and farm organizations and to all those interested in marketing U.S. commodities in Japan. Early reports indicate that well over 250 people will attend the sessions.

Nelson A. Sitt, director of the United States-Japan Trade Council, is the conference's chairman.

ROAMING THE RANGE near Bruneau is this herd of 33 buffalo which have been imported from South Dakota, and Montana. According to Keith McCormick, range manager, the herd was brought to land owned by Rancho Idaho, Inc., and will roam the brushy desert as part of a privately-owned experimental herd. The animals appear very docile, but since they are not like cattle, they are handled cautiously. McCormick asserted. The Rancho Idaho is owned through a subsidiary of the Great Lakes Carbon Corp., with headquarters in New York. It consists of 12,000 acres and grazing rights on another 250,000 acres purchased last year. The 50-head-of-yearling and calves can be seen grazing along the highway on the Rancho Idaho farm, west of Bruneau. They attract many onlookers. (Times-News photo)

National Grain Prices Generally Decline During January-April Period

HYATTSVILLE, Md.—Grain prices in the nation generally declined during the January-April period, with the sharpest loss in soft red winter wheat. Soybeans and flax seed were the exception and made substantial gains.

Wheat prices in April were well above a year ago while corn, soybeans and grain sorghum averaged lower. Stocks of food grains on April 1 were one per cent more than last year but 12 per cent below average.

Wheat stocks were down 21 per cent while soybean holdings were eight per cent greater than a year earlier. Rye and flax seed stocks were up sharply from a year ago.

Wheat prices declined in the January-April period despite near record exports. Hard winter and spring wheat went down an average of one to two cents per bushel while soft red winter dropped six to eight cents during the period.

Soft-white wheat declined seven cents in the Pacific Northwest while hard winter went up six cents per bushel during the four-month period. Stocks of wheat in all positions, April 1, totaled 601 million bushels—245 million less than a year ago.

Of the total stocks, Commodity Credit Corp. owned 450 million, a drop of 190 million from last year. Less than 20 million remained under price support at the end of March, about half that of a year earlier.

Exports of wheat and flour, July through March, totaled about 620 million bushels. While this is slightly below the record of 623 million in 1963-64 it is sharply above the 512 million exported last season. Canadian stocks of wheat on March 31 totaled 750 million bushels compared with 718 million a year earlier.

Wheat exports from United States, Canada, Argentina and Australia, July through March, totaled 1,350 million bushels—10 million more than the previous record in 1963-64 and 250 million more than the same months last year.

Rye prices dropped seven cents per bushel at Minneapolis from January to April due in part to the limited demand for the large stocks. Rye stocks of 24.7 million bushels were 40 per cent above a year earlier and the largest since 1944.

Nearly five million bushels of the 1965 crop remained under price support while about the same amount was owned by Commodity Credit Corporation. Exports of rye totaled 1.7 million bushels—about the same as last year but sharply below average.

Consumption of rye for alcohol was 3.3 million bushels and milling for flour at 3.9 million were both above last year. The quantity remaining for feed at 8.3 million compares with 8.8 million used for feed July through March, 1964-65.

Corn prices at the farm, January through March, averaged three cents per bushel below last year due in part to the larger available supplies. Market prices strengthened during April but averaged two cents below April, 1963.

Stocks of corn in all positions on April 1 totaled 2.6 billion bushels, slightly above last year but 445 million more than the April 1 five-year average.

Reflecting the heavy sales, Commodity Credit Corp. non-committed inventory dropped to 175 million on April 1—the smallest in 15 years. Farmers' stock of corn on March 31 totaled 300 million bushels, the record 1963 crop under price support by the end of March.

Disappearance of corn this first six months of the season at 2,442 million bushels was 192 million above last year. Exports of 558 million bushels the first half of the season were nearly 100 million above a year earlier.

About 98 million bushels of corn were used for wet milling—slightly above last year.

Corn remaining for feed totaled 1,989 million bushels, an increase of 92 million over the same period a year ago. Animal units for 1965-66 are estimated at 19.1 million compared with 18.7 million for 1964-65. Feeding of corn per animal unit totaled 11.8 bushels the first half of the season as against 11.2 last year. Oats prices declined two cents

Bonneville Power Sees Fewer Farms

PORTLAND, Ore.—Bonneville Power Administration published a report on agriculture forecasting a 41 per cent fewer farms and 37 per cent fewer farm jobs by 1985.

The figures are based on a comparison with 1960. The report was prepared for Bonneville Power Administration by the Economic Research Service of the Department of Agriculture. It is part of the economic base studies now being published by Bonneville Power Administration, an agency of the Department of Interior.

Despite the drop in farms and farm workers, crop production will go up—wheat 53 per cent, milk 34 per cent, pork 31 per cent, eggs 45 per cent, broilers 65 per cent.

Potato production will more than double on an acreage only 22 per cent larger than the average from 1957 to 1961. Sweet corn production will quadruple an acreage triple that of 1960. Beef production will rise 377 per cent through intensive use of range and pastures and feedlot operations. Little change is expected in sheep, wool or turkey production.

Food processing is expected to drop 10 per cent despite a substantial increase in output. Meat processing plants will produce 87 per cent more, but will not meet regional needs and shipments into the region will increase.

Dairy products will increase 45 per cent enough to meet Northwest needs and provide a small surplus for shipment. The output of canned and frozen fruits and vegetables will continue to grow rapidly—the canned products by 110 per cent and the frozen fruits and vegetables by 205 per cent.

Flax seed prices advanced nine cents per bushel during the first four months of the calendar year. Despite the gain, prices in April were three cents below a year earlier.

Stocks of flax seed on April 1 totaled nearly 25.9 million bushels as against 17.5 million last year. Exports of flax seed, July through March, at 3.3 million were somewhat below the 5.9 million exported last season.

Crushings of flax seed totaled 16.6 million—only slightly less than for the same period of a year ago.
